

SUPPORT for cultural events – *dolina:dialoga* fund

In the NGO raum AU, we want to contribute our knowledge, provide support and coordination assistance for the cultural development in the entire Mežica Valley (Municipalities of Črna na Koroškem, Mežica, Prevalje and Ravne na Koroškem).

For this purpose, we have created the *dolina:dialoga* fund. The fund supports a wide range of non-profit cultural events to be realised in the Mežica Valley.

The long-term vision of the *dolina:dialoga* fund is to position the Mežica Valley as a valley of cultural, tolerant dialogue. This can only be achieved together, by keeping during the preparation of a project in mind the basic impulse of the fund, namely to warm up the cultural atmosphere, to promote inter-municipal and inter-generational cultural exchanges and to position the *dolina:dialoga* as a cultural brand.

Either legal entities of a non-profit-making nature or individuals can apply for funding. For the latter, the tender requires that, in the event of co-funding, they carry out the project as members of a raum AU. The seat of the organisation or the place of residence of the individual applying for funding is irrelevant, only the place of implementation in one of the municipalities listed above is mandatory.

Applications will be processed on a monthly basis. Successful applications will be co-financed up to a maximum of EUR 1 000. Additional funding from other sources is not a condition.

Applications can be sent to startadialog@dolinadialoga.si, with the subject line "Application - dolina:dialoga fund". Please send a scan of the signed application papers and the original pdf-documents that were filled in.
